GEBERIT ACTUATOR PLATE OVERVIEW

What you see is what you get. The Geberit actuators are the only part of the concealed cisterns that you see and touch several times a day. Find the applications and an overview.

10

INTRODUCTION TO THE GEBERIT CISTERNS

There is a long history behind the Geberit concealed cisterns. Find out more about the background and the advantages.

12

GEBERIT SIGMA CISTERNS

Geberit Sigma cisterns are providing a lot of possibilities for high-class design in your bathroom.

16

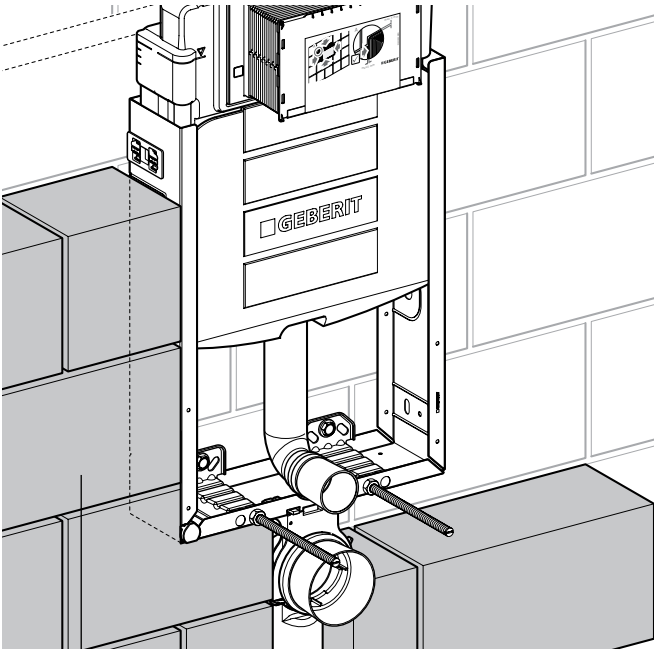

GEBERIT OMEGA CISTERNS

Geberit Omega cisterns offer solutions for low height applications.

20

GEBERIT ALPHA CISTERNS

Geberit Alpha cisterns are the latest members of the family.

22

TECHNICAL INFORMATION

When do you install which cistern?
Find the answers.

23

OVERVIEW OF ALL CISTERNS

All the available cisterns at one glance.

GEBERIT ACTUATORS FOR EVERY APPLICATION

TRIGGER POINTS

The Geberit actuator plates not only come in a large variety of designs, but also for every application. Be it at home, in a semi-public place like a hospital, or in a public place with a high traffic like e.g. an airport: there is an actuator plate for every requirement.

FEEL AT HOME

For the bathroom at home all options are available: there is a vast variety of designs to choose from, single flush, dual flush or stop-and-go flush. Even touchless solutions might be interesting, depending on your needs and bathroom design.

SEMI-PUBLIC SOLUTIONS

For hotels, restaurants or hospitals there are a lot of touchless actuators available that even offer a dual flush system, helping you saving water. Of course all aspects of hygienic requirements are covered.

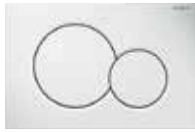

HIGH-TRAFFIC PUBLIC PLACES

If you run a public toilet at a train station, an airport or in a night-club, you go for the vandal-proof actuators made of stainless steel. The infra-red steered actuators that offer a single flush, cleaning automatically after every use, should also be in the centre of attention.

ACTUATOR PLATES

Learn more about the Geberit product range and visit our actuator plate configurator at → www.international.geberit.com

The Geberit actuator plate is the only part you see of the concealed cistern. It is a piece of design, a decoration item for your bathroom. At the same time it is functional and easy to clean. Whatever needs you have – there is the correct actuator plate.

GEBERIT CONCEALED SOLUTIONS

THE TRADITION OF HIDING CISTERNS

In solid and drywall construction, the Geberit concealed cistern is the heart of more than 60 million concealed installations in the bathroom or WC. Every detail of this product is ingenious and has been proven a million times over. Plumbers and endusers have trusted polyethylene cisterns from Geberit for more than 50 years.

EVENTFUL HISTORY, CONSTANT INNOVATION.

Since 1964 Geberit has been working on product improvements and has constantly developed the quality and functionality of the cisterns. Not only has the product itself moved on, but so too have the product benefits.

BEAUTIFUL DESIGN

The actuator plates are the eye-catchers in your bathroom. A concealed solution with a wall-hung WC offers a lot of design options for your bathroom.

WITHSTANDING HEAVY LOAD

The Geberit wall-hung solutions are designed and tested to withstand weights of 400 kg.

SAVING WATER

The water consumption can be sustainably reduced with a Geberit dual flush actuation for the WC. The smaller button flushes with 3 litres, the bigger one with 6 litres and is easily reduced to 4.5 litres.

OPENING SPACE

As soon as the sanitary technology hides behind the wall, a new feeling of space is created. A wall-hung solution makes your bathroom look bigger.

EASY TO CLEAN

The fewer edges, joints and corners, the simpler to clean and more hygienic. Particularly in the WC area, it is better when ceramic appliances are wall-mounted to keep the floor space open.

PREMIUM QUALITY

All products from Geberit are known for their very high reliability and durability. This not only ensures safe and trouble-free function, but also reduces maintenance costs. Proven Swiss technology for decades.

↑

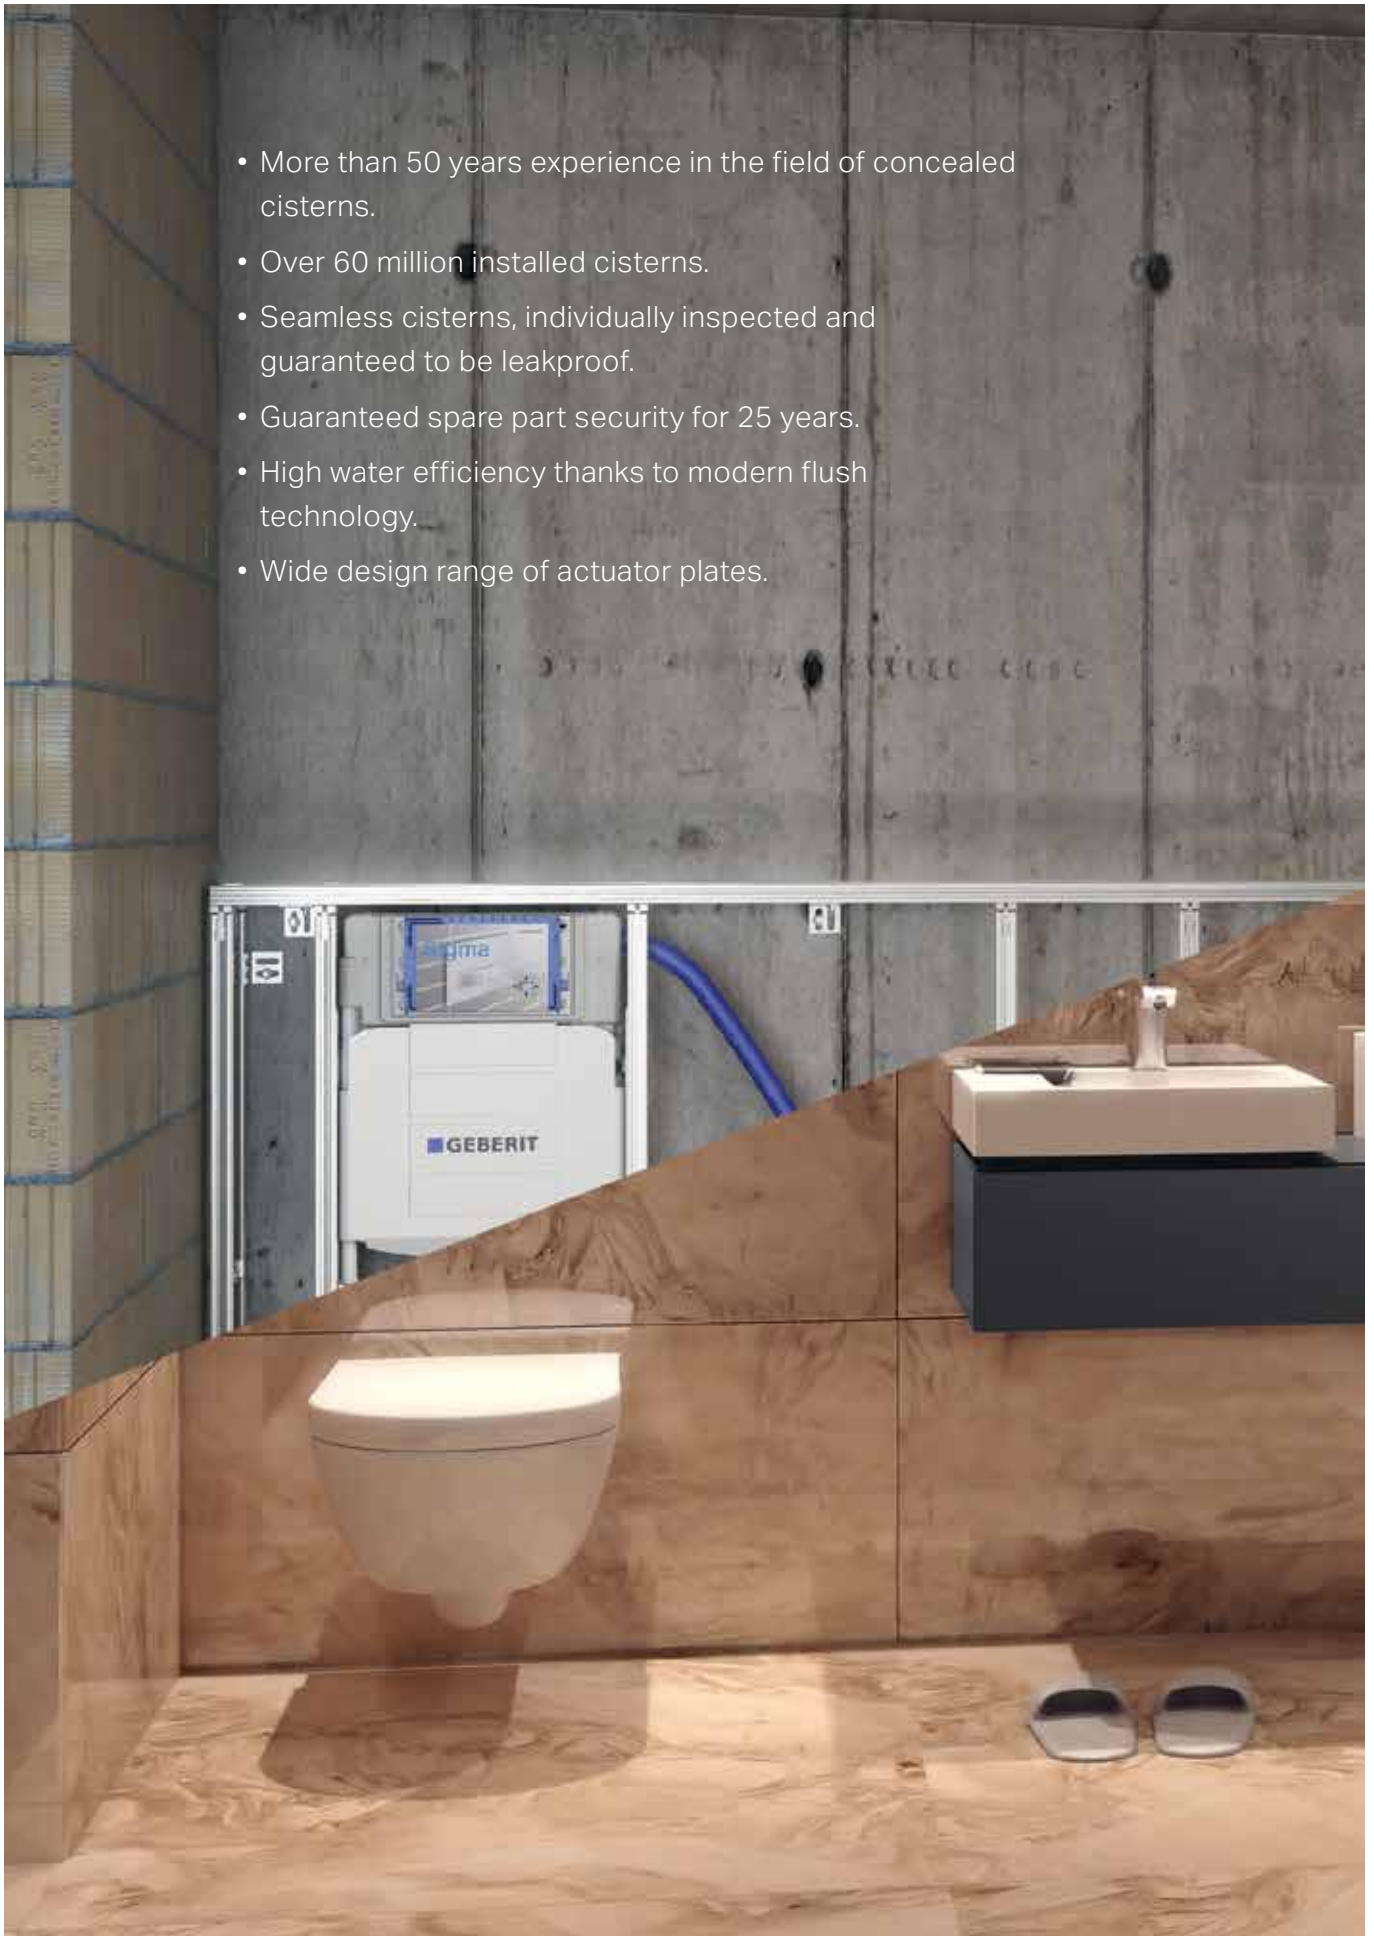

Introducing the first concealed cistern in 1964

↑

Current state of modern technology

- More than 50 years experience in the field of concealed cisterns.
- Over 60 million installed cisterns.
- Seamless cisterns, individually inspected and guaranteed to be leakproof.
- Guaranteed spare part security for 25 years.
- High water efficiency thanks to modern flush technology.
- Wide design range of actuator plates.

GEBERIT SIGMA CISTERNS

TOUCHING DESIGN

STYLISH CALLING CARDS

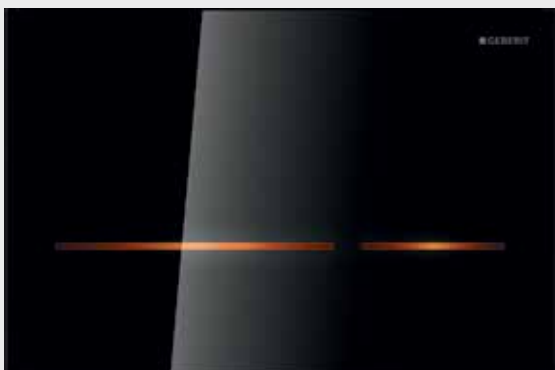

The Geberit Sigma concealed cisterns not only offer numerous installation possibilities, but also the widest range of stylish actuator plates. Be it for single flush, dual flush or stop-and-go flush, mechanical, pneumatic, hydraulic or touchless actuation.

FUNCTIONAL BEAUTY

With Geberit Sigma cisterns not only style moves into your bathroom, but also functionality. With a prewall construction you gain space for cosmetics or other bathroom items. Another possibility to give your bathroom a personal touch.

STATE-OF-THE-ART DESIGN

The Geberit Sigma concealed cisterns offer solutions to almost every building situation and to every design idea. Thus, it is possible to create extraordinary bathroom looks that meet all the requirements and expectations.

Geberit iCon WC ceramic, Geberit Sigma60 actuator plate, Geberit iCon washbasin and furniture

GEBERIT SIGMA SPECIAL SOLUTIONS

SPECIAL TREAT

FOR YOUR TOILET

Sometimes the design of your bathroom creates a special request for the installation of the toilet. The Geberit Duofix installation elements offer solutions to almost any unusual construction situation.

↑
111.350.00.5
Geberit Duofix element for a barrier-free solution. The frame-width is reduced for the placement of support handles next to the element.

↑
111.790.00.1
Geberit Duofix element with mounting plate for support handles.

↑
111.390.00.5
Geberit Duofix element for corner installation. Also suitable for a one-sided wall fixation, e.g. next to a bathtub.

↑
Another special feature of the Geberit concealed cisterns is the tool-free maintenance.

OPTIONS WITH GEBERIT SIGMA CONCEALED CISTERNS:

Geberit DuoFresh with an effective odour extraction device. A switch in the actuator plate activates the odour extraction unit. The air is purified by means of an active carbon filter and is subsequently released back into the room.

GEBERIT OMEGA CISTERNS

SMALL AND

POWERFUL

Geberit AquaClean Sela with remote control,
Geberit Omega60 actuator plate customised,
Geberit remote flush actuation type 70

FREEDOM OF PLACE

If you want to have a clean front view, Geberit Omega is offering the solution. Geberit Omega cisterns can be activated from the top. This adds to the various design options with Geberit concealed cisterns.

SMALL ACTUATORS

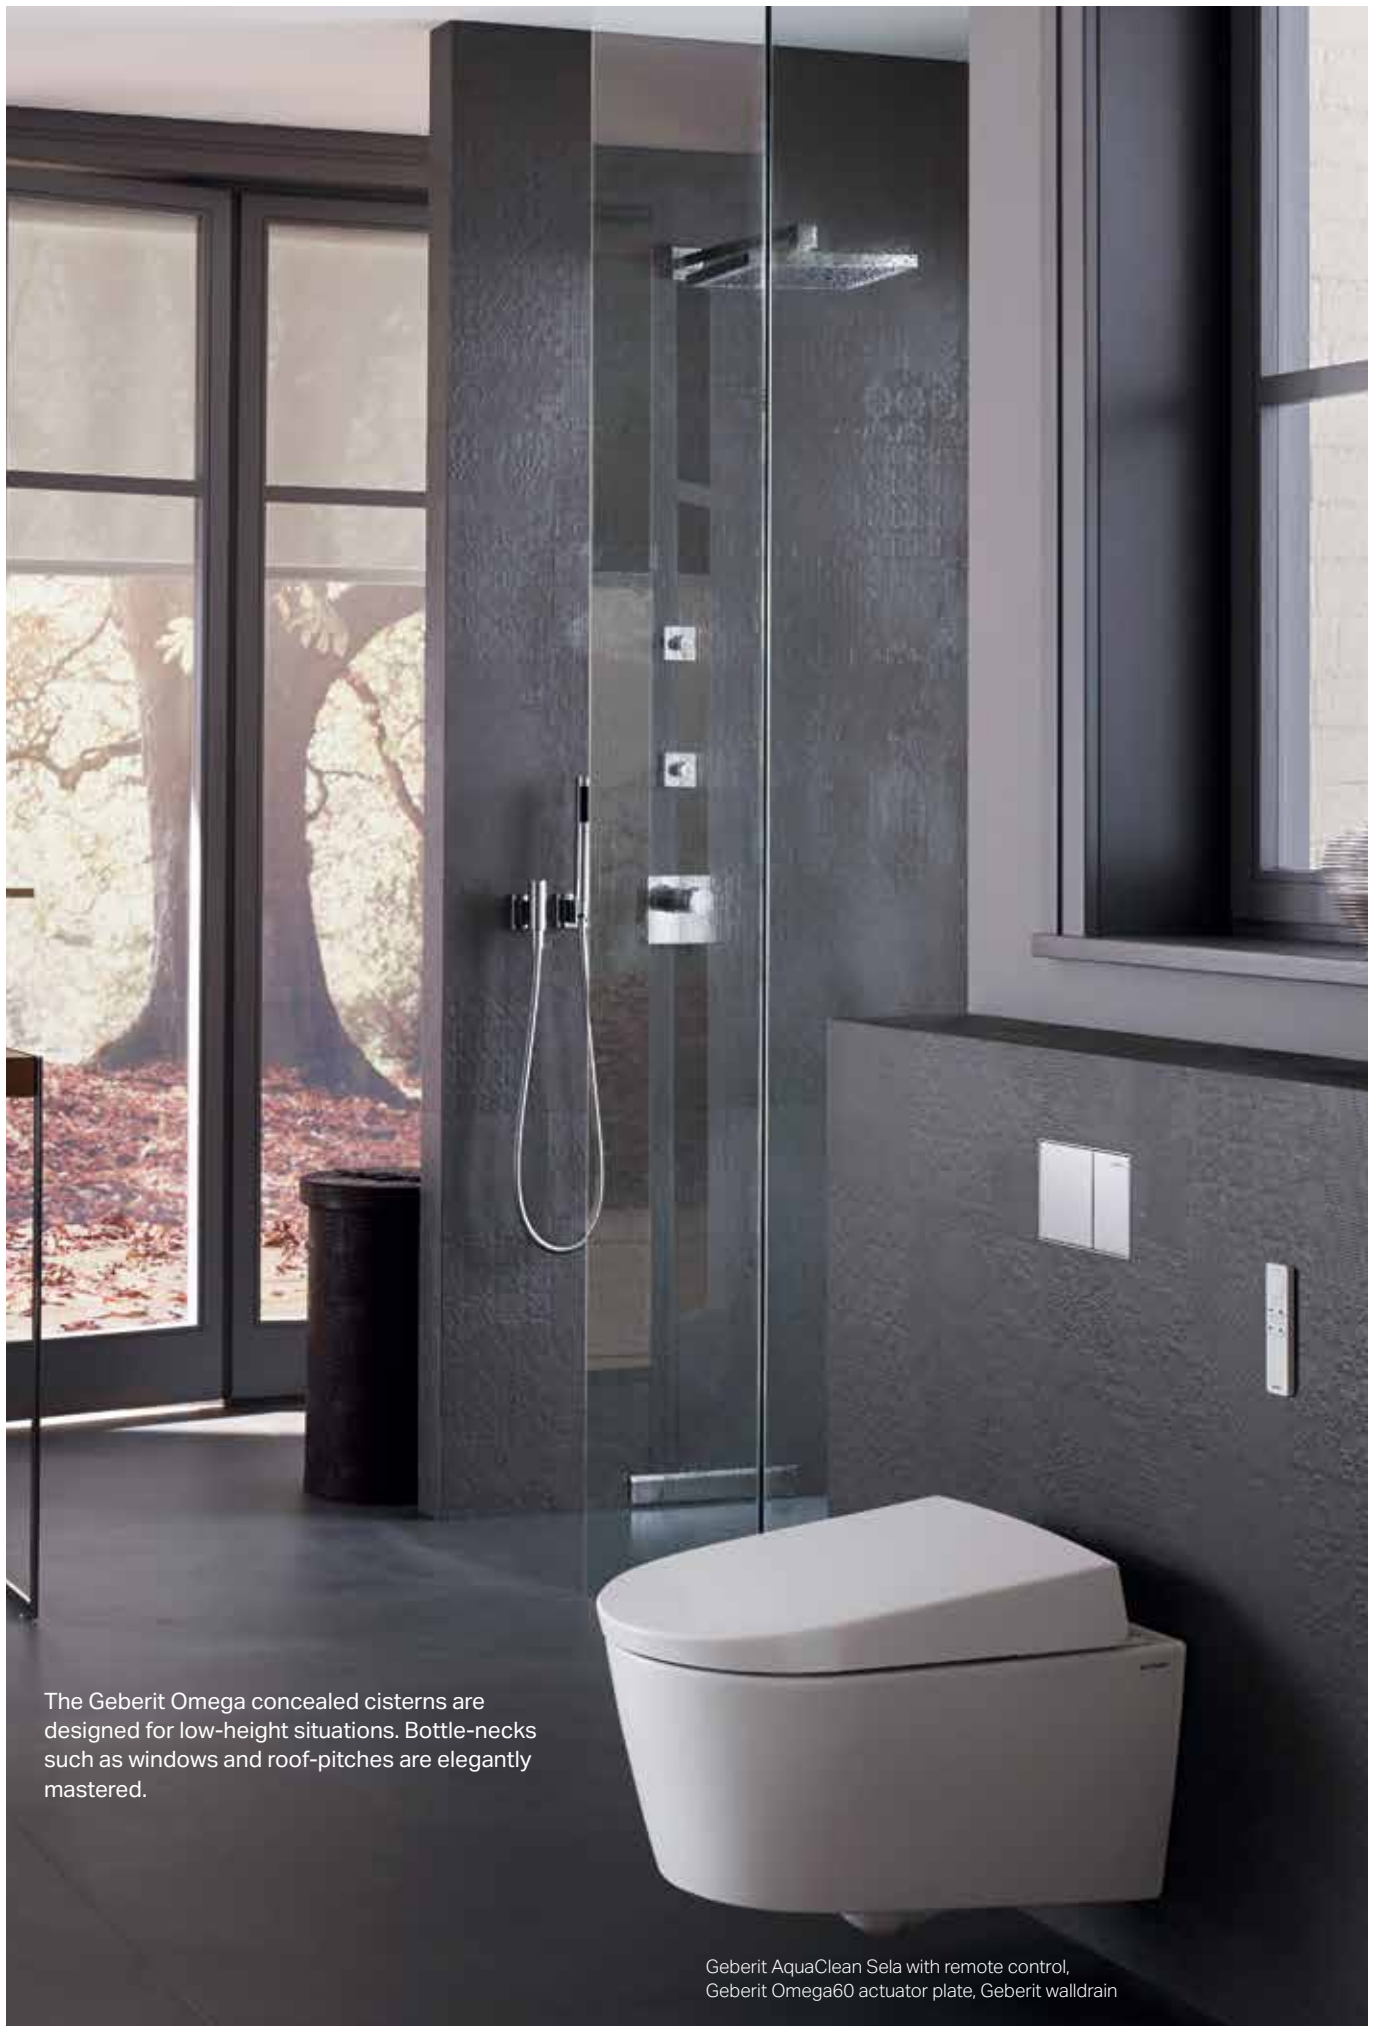

The service opening of the Geberit Omega cistern has a size of 180 mm x 110 mm which allows the installation of small, elegant actuator plates: Omega20, Omega30 and the surface-even Omega60.

Omega20

Omega30

The Geberit Omega concealed cisterns are designed for low-height situations. Bottle-necks such as windows and roof-pitches are elegantly mastered.

Geberit AquaClean Sela with remote control,
Geberit Omega60 actuator plate, Geberit wall drain

GEBERIT OMEGA CISTERNS FOR LOW HEIGHTS

SOLUTION PROVIDER IN NARROW SPOTS

Geberit Omega opens up unexpected opportunities when it comes to the design of your bathroom. Having the freedom of choice to install a top or a front actuation, there are no borders anymore to your creativity in bathroom design and the implementation of your ideas.

THREE CISTERN HEIGHTS

The Geberit Omega concealed cistern can be installed at a height of 82 cm, 98 cm and 112 cm. No matter what installation height: the flush performance is outstanding. All the Omega cisterns come with a water-saving dual flush system.

FIT FOR ALMOST EVERY PREWALL

With a minimum depth of 12 to 14 cm for the front actuation (depending on the chosen element) and a minimum depth of 17 cm for the top actuation, the Geberit Omega concealed cistern fits into nearly any prewall. It can be connected to the water supply from the rear as well as from the side. Installing the cistern and mounting the actuator plate can both be completed without special tools.

TOP OR FRONT - THAT IS THE QUESTION

Depending on the construction situation, the actuator plate can be installed on the top or front of the cistern. Whatever your bathroom looks like, you have the choice. The Omega cisterns are designed in such a way that both options can be chosen freely.

TOOL-FREE MAINTENANCE

The Geberit Omega cisterns can be serviced without tools. This makes maintenance as easy as pie.

OPTIONS WITH GEBERIT OMEGA CONCEALED CISTERNS:

	for solid wall	for drywall	GIS compatible	corner solution	barrier-free solution	front actuation	top actuation	low-height	tool-free maintenance	odour extraction	AquaClean connection	WELL-Label

Geberit Omega	x	x	x			x	x	x	x		x	x
Geberit Alpha	x	x				x						

GEBERIT ALPHA CISTERNS

STRIKING SIMPLICITY

Geberit Alpha concealed cisterns are offering a slightly reduced scope of options but are nonetheless standing for high quality and reliability. The cisterns can be installed in either brick walls or drywalls. For standard bathroom requirements the perfect match.

Geberit Alpha actuator plates come in five designs in four different finishes. They are all made of high quality plastic.

OPTIONS WITH GEBERIT ALPHA CONCEALED CISTERNS:

	for solid wall	for drywall	GiS compatible	corner solution	barrier-free solution	front actuation	top actuation	low-height	tool-free maintenance	odour extraction	AquaClean connection	WELL-Label
Geberit Sigma	x	x	x	x	x	x			x	x	x	x
Geberit Omega	x	x	x			x	x	x	x		x	x
Geberit Alpha	x	x				x						

The Geberit Alpha cisterns are the perfect choice for a small bathroom. The small Alpha actuator plates give a discreet and elegant finishing touch to a modern bathroom.

CONCEALED CISTERNS OVERVIEW

AT ONE **GLANCE**

Geberit concealed cisterns

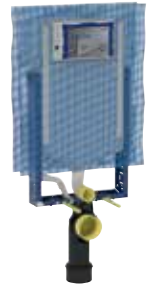

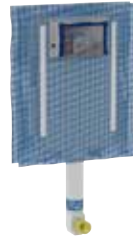

- Available in various dimensions and suitable for any construction situation.
- All models are equipped with a high-end flush valve and a top silent fill valve, exceeding Sound Class 1 requirements.
- Easy maintenance at any time through a service opening.
- Exceptional spare part security for all function-maintaining components for 25 years.

Dimensions

Whether it be under windows or sloping roofs, in a corner or on a free-standing wall, systems and products from Geberit give you practically unlimited possibilities. Installations behind the wall lend elegance and increased space; part-height prewall installations offer additional storage possibilities.

SOLID WALL INSTALLATION

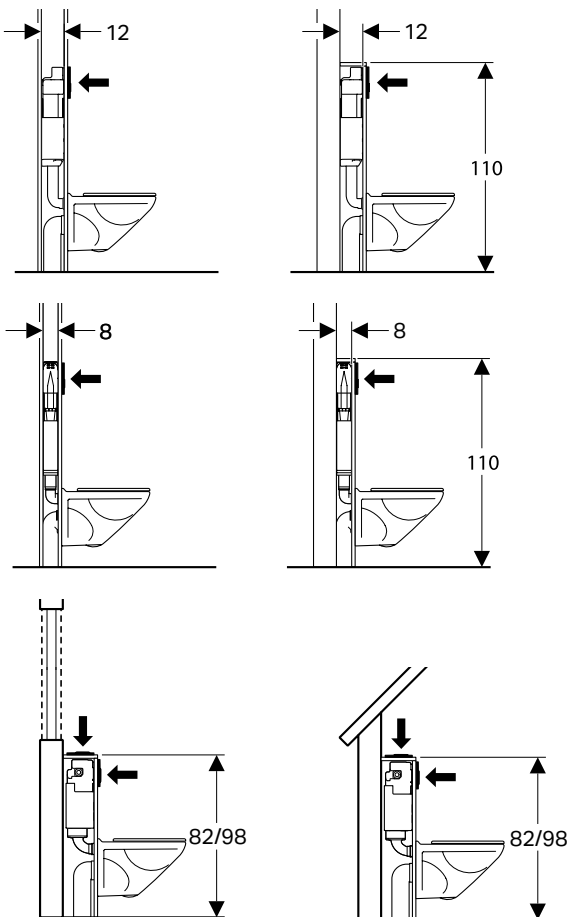

Geberit Kombifix installation elements are exclusively suitable for solid construction. They must be fastened in front of or inside a solid wall and then subsequently brick lined.

DRYWALL INSTALLATION

Geberit Duofix installation elements are suitable for all drywall construction situations with a drywall system. It is possible to create complete room-height prewalls or partition walls.

←
12 CM CISTERN-THICKNESS
 In the wall or in front of the wall. Flushing actuation from the front. Choose either a Sigma 12 cm cistern, an Omega cistern or an Alpha cistern with the included brackets.

←
8 CM CISTERN-THICKNESS
 Solution for thin wall constructions or for pace-saving installation in front of the wall, flush actuation from the front. Choose either a Sigma or an Alpha cistern.

←
LOW-HEIGHT SITUATIONS
 Solution for low-height installation with element heights 82 / 98 cm. Choose an Omega cistern.
